Figure 1h. 5-year age-standardized relative survival (ASRS%; 0–74 years) by country and cancer of the colon (median (minimum-maximum) of values if more than one registry are contributing)

Median 5-year ASR% (0-74 years) value \{Range\}

- China: \{42-63\}
- Republic of Korea: \{57-65\}
- Singapore: \{57-65\}
- Turkey: \{57-65\}
- Cuba: \{57-65\}
- Philippines: \{32-52\}
- Thailand: \{32-52\}
- Zimbabwe: \{5-30\}
- India: \{5-30\}
- Uganda: \{5-30\}
